Questions

1) What did Stanley find useful about being flat?

Stanley found being flat useful as he could slide under doors without opening them. Also when Mrs Lambchop dropped her ring down the grid, she was able to lower him down by his shoelaces and he could get it back for her.

2) How do you feel the policeman acted towards Mrs Lambchop? Was this fair?

The policemen were very rude to Mrs Lambchop. As they did not understand the situation, they tried to make out that she was crazy. I don't think that this was fair. They should have found out the whole story before assuming.

3) How was Mrs Lambchop feeling? Why?

Mrs Lambchop was feeling very nervous. Stanley had never been away from home before so she was worried about missing him and Stanley missing her. I think I would also be quite concerned if I was posting my child to another country as it is quite a long way. What if he went missing in the post?

4) Write what you think Stanley's journey would be like.

Your own opinion of what you think would happen.
